Dear Mr Campbell

I refer to your letter of 1 August 2017 to the Honourable Anastacia Palaszczuk MP, Premier and Minister for the Arts, about the Queen's Wharf Brisbane (QWB) project. As this matter falls within the portfolio responsibilities of the Honourable Dr Anthony Lynham MP, Minister for State Development and Minister for Natural Resources and Mines, your correspondence was forwarded to his office for response. Dr Lynham has asked that I respond on his behalf.

The Department of State Development (DSD) and Destination Brisbane Consortium (DBC) have been engaging with Brisbane's bicycle users since DBC was announced as the preferred proponent in 2015.

I understand there is a concern about the proposed shared area in the new development and the risk of cyclists and pedestrians sharing the same area. DSD is advised by DBC that the plaza would be at least 25 metres wide in parts and has clear lines of sight and unobstructed views. In addition to this, significant design work is underway to ensure there is delineation between cyclists and pedestrians, priority is clear for all users and that cyclists and pedestrians can move safely through the plaza.

QWB will also substantially invest in enhancements to the Bicentennial Bikeway by removing substandard pinch points, s-bends and lengthy shared paths along the river.

The design for QWB has been done to ensure that it will adhere to, and in parts exceed, Austroad standards for relevant sections of the development in respect to cycle pathway standards.

If you have any questions about my advice to you, Mr Paul Krautz, Project Executive Director Delivery, Special Projects Unit, Department of State Development, will be pleased to assist you and can be contacted on (07) 3452 7060.

Yours sincerely

A handwritten signature in black ink, appearing to read 'P Woodland', with a stylized flourish at the end.
