Dear Hon. Minister Leeanne Enoch, Minister for Environment and the Arts

The CBD BUG was recently briefed on council's proposed Alice/Edward - Botanic Gardens Ped Cycle Bridge. During the meeting Brisbane City Council officers claimed that many heritage issues had resulted in the path as announced being of significant length and subsequently resulting in a substantial project cost. In the interest of being fully informed the CBD BUG would kindly ask for a map showing heritage constraints for the project location.

Sincerely

Donald Campbell
