Dear Mr Murdoch,

**Bikeway Extension
The Esplanade to Fletcher Parade**

Brisbane City Council is pleased to advise that work will be undertaken to construct the missing section of bikeway between The Esplanade and Fletcher Parade at Ashgrove.

This new section bikeway will provide a continuous bikeway facility from Glenrosa Road through to Coopers Camp Road, passing under Jubilee Terrace. The bikeway will operate off road between the existing footbridge near Hartfield Drive and Jubilee Terrace. It will then become an on road facility along the length of Fletcher Parade.

Vegetation clearing work will commence in mid February. This will involve the removal of three large rubber trees. A replanting program will be implemented to replace some of the removed trees and other vegetation.

Construction of the bikeway is planned to commence from April. Further details of the bikeway design will be provided in the next two months as construction plans are finalised.

In the mean time, if you have any questions or concerns, please call Council on 3403 8888.

Yours sincerely

Michael Marlow
Project Manager
