

Bicentennial Bikeway upgrade – Hale Street west

Temporary access changes

Bicentennial Bikeway is being upgraded progressively.

Work will commence on the Bicentennial Bikeway – Hale Street west project in December 2010 and is expected to be completed in April 2011, weather permitting.

To maintain safety during construction:

- pedestrians must detour at **Graham Street and the Go Between Bridge at all times**
- cyclists must detour between **Graham Street and the Go Between Bridge from 8pm to 5am** and will be diverted onto a temporary side track from 5am to 8pm. Traffic controllers will manage contra flow on this side track.

This project includes upgrading the section between the Hale Street/Go Between Bridge and the ramp adjacent to the Cribb Street intersection, approximately 250 metres. A 3.5 metre wide cycle path and a 2 metre wide pedestrian path will be constructed.

This project is a part of Lord Mayor Campbell Newman's commitment for Brisbane City Council to provide \$100 million in new bikeway infrastructure over four years.

This stage of the upgrade is jointly funded by Brisbane City Council and the Queensland Government.

More information

- phone the project team on **1800 727 923** or Council on **3403 8888** (after hours).
